

Job Opportunities for Postdoctoral Fellows and Research Associates in Peru

The NMR laboratory at the Pontificia Universidad Católica del Perú in collaboration with the NMR & Molecular Interaction Group headed by Dr. Guy Lippens (CNRS-INSA Toulouse, France) is looking for highly motivated postdoctoral fellows and research associates to work in a multidisciplinary environment within the scope of “Nuclear Magnetic Resonance for Food Science and Health Science”. The selected candidates will work in a multidisciplinary environment.

Profile:

Applicants must possess an advanced degree (Ph.D. or equivalent) in **Chemistry**, Biochemistry or **Physics** with research experience in one or several of the following areas:

- Biomolecular NMR of proteins: experience in biomolecular NMR spectroscopy, including pulse sequence design. Previous experience with molecular biology and protein expression/purification is appreciated.
- Biomolecular NMR of DNA: experience in DNA structure determination by NMR. Experience in pulse sequence design will be appreciated.

All candidates must be fluent in English. Spanish is not mandatory.

Salary: 130,000 to 210,000 soles (between USD 30-60k) per year based on the qualifications.

Period of employment: Up to three years.

How to apply: Interested applicants that fulfill the requirements should send a cover letter, CV and two letters of recommendation to Dr. Helena Maruenda (hmaruen@pucp.edu.pe)
