

Fellowship available

Biomolecular NMR laboratory c/o Ospedale S. Raffaele-Milano

Type of position: Fellowship (one year, with possibility of renewal)

Subject area: Protein expression and purification for structural (NMR, X-Ray) and biophysical (MST, ITC, SAXS, Cryo-EM) studies

Description: A fellowship is currently available in the Biomolecular NMR laboratory at S.Raffaele Scientific Institute, Milano, Italy.

Requirements: Qualifications include a B.S. in biological sciences, biotechnology or chemistry. Experience in molecular biology and/or biochemistry, protein expression and purification is essential. Experience in expression and purification of membrane proteins is highly appreciated. Experience in biophysical and structural biology methods (e.g. ITC, NMR, Analytical Ultracentrifugation, X-ray, cryo_EM) and/or cell biology is considered a plus. Good organizational skills, ability to focus on multiple priorities are required.

Please submit: CV, statement of research experience & interests, 3 references.

Start date: March 2022

Salary or grant: Based on experience
