RF-Coils: Design and build your own

Course venue:

University of L'Aquila/IT

This course is limited to 20 participants.

Course language:

English

Educational level:

This course is intended for scientists and engineers who have a basic knowledge of mathematics and simple electrical circuits. Attendees should have a working knowledge of magnetic resonance basics.

Topics:

- RF circuit design
- Hardware for RF testing
- Simulation software
- Advanced RF coils
- Practical design and construction
- RF coil characterization

Preliminary faculty:

M. Alecci, N. Avdievich, A. Galante, J. Mispelter, A. Monorchio, A. Webb

A certificate of attendance will be available online for participants.
